3.4 Segregation

Policy summary

Corrective Services NSW (CSNSW) is responsible for the care and safety of inmates in custody. An offender can be placed in segregated custody for the protection and safety of others. An inmate will only be placed on a segregated custody direction when there is no other reasonable way to manage the risk/s to safety, security, or good order and discipline of the correctional centre.

There are strict time limitations, review and appeal processes when an inmate is placed on a segregated custody direction.

CSNSW works in conjunction with Justice Health and Forensic Mental Health Network (JHNSW) to moderate the effects of a segregated custody direction upon a mentally ill inmate, or one with a suspected mental illness.

1 Segregation

1.1 Policy

Corrective Services NSW (CSNSW) is responsible for the care and safety of inmates in custody. In some circumstances an inmate can be placed in segregated custody for the protection and safety of others.

Division 2 of the *Crimes (Administration of Sentences) Act 1999* (the Act) outlines the segregation process, including the Commissioner's authority to place an inmate in segregated custody, and the review and appeal processes.

Section 10(2) of the Act authorises the Governor to make a direction to segregate an inmate in their centre. On each occasion an inmate is placed in segregated custody, the Governor must inform the Commissioner (or delegate).

When the Governor or delegate makes a determination to place an inmate in segregated custody, this direction remains in force until it is revoked.

The Governor or other authorised officer directing the segregated custody must ensure there is justification for the direction, and that detailed reports are provided to support the decision. The inmate must be informed of the specific reasons for their segregation.

An inmate's placement in segregated custody can be reviewed by the Serious Offenders Review Council (SORC) at any time after the first 14 days have elapsed, but the inmate must be informed of this when first placed under a direction by the Governor, and sign acknowledgement of this.

Segregated custody must never be used if there are other satisfactory ways of managing the identified risk(s), of the inmate. Governors (and delegates) should consider the use of Behavioural Management Plans (COPP 3.11) in defining and conveying behavioural expectations for inmates.

1.2 Criteria for segregated custody

An inmate can only be placed on a segregated custody direction if in the opinion of the Governor (delegate) such segregation is necessary to secure:

- the personal safety of any other person
- the security of a correctional centre
- good order and discipline within a correctional centre

1.3 Effect of segregated custody

An inmate placed on a segregated custody direction must be detained:

- in isolation from other inmates; or
- in association only with other like inmates, as determined by the Governor or delegate.

The Governor or delegate must ensure that an inmate held in segregated custody:

- is not to suffer any reduction of diet
- is not to be deprived of any rights or privileges other than those determined by the Commissioner (or Governor/delegated officer in exercise of the Commissioner's function to direct an inmate be held in segregated custody), and other than those deemed necessarily incidental to the holding of the inmate in segregated custody.

1.4 Time periods affecting segregated custody

Direction	Delegated officer	Decision	Annexure	Time-frame to be reviewed	Duration in force
Initial Direction 14 days	Governor or delegate	Direct	<i>Segregated Custody Direction / Review of segregated custody direction</i>	A completed <i>Review of segregated custody direction</i> must be submitted within 14 days from the initial <i>Segregated Custody Direction</i>	14 days
Review of Initial Direction 3 months	General Manager, Statewide Operations	Revoke, confirm or amend	<i>Review of segregated custody direction</i>	Within 7 days from receipt of <i>Review of segregated custody direction</i> (3 month report includes 14 days)	3 months (if not revoked)
Review of Second Report 3 – 6 months	General Manager, Statewide Operations	Revoke, confirm or amend	<i>Review of segregated custody direction</i>	Within 7 days from receipt of <i>Review of segregated custody direction</i> , (3-6 months report)	3months (if not revoked)
Review of 6 months Report 6 month and subsequent 3 month	Commissioner	Revoke, confirm or amend	<i>Review of segregated custody direction</i>	Within 7 days from receipt of <i>Review of segregated custody direction</i> , (6 months report & subsequent)	3 months (if not revoked)

Paperwork must be completed, signed by the decision-maker, sent within the above time-frames, and cannot be back-dated.

The Minister is to be notified in writing when an inmate is held in segregated custody for a total continuous period of more than six months.

1.5 Record keeping for segregated custody directions

The *Segregated Custody Direction* must be signed by the decision-maker. It must be stored in EDRMS along with accompanying reports, using the naming convention:

Direction number - MIN – inmate last name – inmate first name – type of order (either 14 days, 3 months, 3-6 months, 6+ months or revocation direction).

For example:

MSP1234567 – 987654 – Smith – John – 14 days

A copy of each segregation direction must also be placed in the inmate's Case Management File (CMF).

1.6 Segregation of inmates on a protective custody direction

An inmate who is subject to a protective custody direction may be placed in segregated custody if their behaviour constitutes a threat to the personal safety of any other person, the security of the correctional centre, or good order and discipline within a correctional centre.

Accordingly, it is possible that two Offender Integrated Management System (OIMS) Care in Placement directions will exist at the same time. There must be separate directions raised for both protection and segregation. The area where the protective custody inmate is accommodated during the time they are also subject to a segregated custody direction is determined by local management.

The procedure to follow is the same as outlined below in 2.2 below (**refer to COPP section 3.2 Protective custody**).

2 Segregated custody direction

2.1 Policy

The Governor (delegate) may only direct an inmate be placed on segregated custody if they are satisfied such segregation is necessary to ensure:

- The personal safety of any other person
- The security of a correctional centre
- good order and discipline within a correctional centre.

No inmate is to be deprived of any rights or privileges other than those imposed as a penalty for a correctional centre offence with which the inmate has been charged and a determination made. This includes the keeping of approved personal property e.g. goods purchased or under hire.

However, before the inmate's property is moved to the segregation cell, an assessment must be conducted to determine if any of the inmate's property represents a risk to the safety of staff managing the inmate, or to the inmate themselves. Property which presents such a risk must be placed in storage until the risk is minimised. Consider if metal or plastic cutlery is to be replaced by cardboard spoon. A new risk assessment is to be conducted with each review of the segregated custody direction.

The Functional Manager (FM)/authorised officer must visit the inmate daily to check on their wellbeing and establish, on an on-going basis, whether there is any need to continue the segregated custody.

Where daily contact with the inmate or review of the case management file identifies any deterioration (either physical or mental) in the inmate's state of health, the FM/authorised officer must immediately convene a Case Management Unit (CMU)/ Segregation Review Committee (SRC) meeting.

The composition of the CMU/SRC should include a representative from JHNSW. The meeting must assess the inmate and provide an immediate report to the Governor (delegate) and the Commissioner.

Note: Confidential notes or reports that may affect security of the centre or the safety of staff or inmates (if they become general knowledge) should not be placed on the inmate's case management file. These notes or reports should be referred to the correctional centre Intelligence Officer and maintained in a secure area in the Governor's office.

A notation should be made on the inmate's Case Management File (CMF) alerting officers to the existence of other sensitive material (e.g. "*Further information relating to Segregated Custody Direction Number XXXXX is located in the Governor's office*").

2.2 Review of cell placement decision

A review of an inmate's cell placement decision must be undertaken by the officer specified in the LOP upon segregation of an inmate. Refer to *COPP section 5.2 Inmate accommodation*.

Next, follow steps 6-12 in the *3 months report (includes 14 days)* procedure at 2.3.

3 Placement of Aboriginal inmates into segregated custody

3.1 Policy

Segregated custody may cause greater distress for an Aboriginal inmate than for other inmates. When considering such placements recognition must be given to the unique social and cultural relationships that exist between Aboriginal people.

Recommendation 181 of the *Royal Commission into Aboriginal Deaths in Custody* states that placing an Aboriginal inmate in segregated custody is undesirable in the highest degree.

However, where segregated custody is necessary, the Governor is to:

- ensure that the relevant Regional Aboriginal Pathways Officer (RAPO) (who will provide support for the inmate) is informed
- provide the segregated inmate with access to a member of the Aboriginal Inmate Committee or appropriate Aboriginal delegate. Such access may assist inmates who are experiencing problems that could lead to physical or mental harm
- Notify the Aboriginal Advisory Unit (AAU) via email at aau@dcj.nsw.gov.au and include any associated documents.

These procedures are in accordance with the recommendations of the *Royal Commission into Aboriginal Deaths in Custody* and must be followed.

4 Inmates who pose a risk to the safety of officers

4.1 Policy

In cases where the risk assessment indicates that an inmate poses a risk to the safety of officers when officers have to enter the cell for routine purposes or when moving the inmate from or to their cell, the Governor (delegate) may direct that additional management procedures be followed (**refer to COPP section 5.4 Entering cell of inmate posing risk**).

The FM/authorised officer will determine whether the movement of the inmate into or from a cell is recorded on video. If the movement is to be recorded, the operator must begin by recording the authorised officer of the movement giving a briefing to the camera on why the inmate is being moved, prior to them giving the initial direction to the inmate.

The video recording must be managed in accordance with the **COPP section 13.9 Video evidence**.

As per the policy at 2.1 above, an assessment must be conducted to determine what property an inmate may have in their cell while on segregation. Any property that

poses a risk to the safety of officers, other inmates or to the inmate themselves must be placed in storage.

5 Segregated custody of mentally ill inmates

5.1 Policy

All instructions and responsibilities set out in this policy apply irrespective of the inmate's mental health.

However, where an inmate with a mental illness, or who is suspected of suffering from a mental illness, is placed on a segregated custody direction, they must be managed collaboratively with JHNSW to ensure their safety. Risks to their wellbeing must be identified, assessed and managed. With the approval of the Governor, these inmates may be placed in a cell other than a designated segregation cell.

JHNSW staff have their own guidelines for assessing segregated inmates. The assessment may involve checking the inmate's medical file for evidence of a mental illness and interviewing the inmate. CSNSW personnel must assist JHNSW in this process, and give them prompt access to the inmate and the inmate's CMF.

CSNSW personnel must also inform the assessing JHNSW nurse of any other relevant information or intelligence involving the inmate that would impact on the assessment. This may include information such as an impending transfer or deportation, death or illness of a family member or friend, a change in the inmate's classification or any recent irrational behaviour or offences in custody.

5.2 Procedures

	Procedure	Responsibility
1.	Notify Nursing Unit Manager (NUM) or the Nurse in Charge (NIC) by telephone or in person immediately if an inmate with a mental illness, or who is suspected of suffering from a mental illness, is placed on a segregated custody direction. If JHNSW nursing staff are not on duty, the After Hours Nurse Manager (AHNM) must be informed, and the NUM or NIC immediately informed once they commence duty.	Governor
2.	Give the NUM, NIC or AHNM a brief explanation of the circumstances of the segregated custody order and of any special risks the inmate may present to their safety or security.	Governor
3.	Record on the <i>Segregated Custody Direction</i> the date, time and name of the nurse who was informed.	Governor
4.	Notify NUM, NIC or AHNM immediately if anyone notices: <ul style="list-style-type: none"> the inmate displaying unusually adverse, irrational or problematic behaviour; or the inmate needs medical or psychiatric care; or the inmate's condition deteriorates. 	Governor/ Authorised officer

	Procedure	Responsibility
5.	Assess the inmate within 24hours.	JHNSW
6.	Determine whether the inmate's mental health can be managed while the inmate continues to be segregated. Advise the Governor of this determination in a <i>Health Problem Notification Form</i> (HPNF).	JHNSW

If the assessment is that **the mental health problem is manageable while in segregation:**

	Procedure	Responsibility
1.	Develop a joint management plan including: <ul style="list-style-type: none"> • details of those behaviours that if observed, would constitute a deterioration in the inmate's mental health and activate an unscheduled review; and • how behavioural changes will be managed. 	Authorised Officer and JHNSW
2.	Enter a medical alert on OIMS with reference to the Management Plan.	Authorised Officer

If JHNSW believe the **inmate's mental health is likely to deteriorate while in segregation:**

	Procedure	Responsibility
1.	Revoke, confirm or amend the segregation direction in response to this advice and how it might affect security and or the safety of personnel and other inmates.	Governor
2.	If the Governor believes that segregation is still necessary, they (or an authorised officer) must meet with the NUM or NIC immediately and plan for the inmate's care including details for: <ul style="list-style-type: none"> • the level of custodial observation and supervision • the level of nursing observation • ongoing regular access to mental health professionals and if necessary placement in the Long Bay Hospital; and • managing the risks to security and safety of personnel and other inmates. 	Authorised Officer and JHNSW

Note: Where an inmate with a mental illness is at risk of self-harm or suicide, a *Mandatory Notification form* must be raised in accordance with **COPP section 3.7 Management of inmates at risk of suicide or self-harm.**

If an inmate with an identified mental health illness is to have the segregated custody order extended beyond three (3) months:

	Procedure	Responsibility
1.	Inform JHNSW at least four weeks before the expiration date when an extension to the order is being considered.	Governor
2.	Allow for JHNSW to arrange for the inmate to be examined by a psychiatrist well before the current order expires to assess the inmate's mental health and the risks to the inmate's mental health of continued segregation.	Governor
3.	Following the psychiatric recommendation, advise the Governor of any further psychiatrist's recommendations affecting the management of the inmate on a <i>Health Problem Notification Form</i> .	NUM/NIC
4.	Note any psychiatric recommendations on the correctional centre's request for a continuation of <i>Segregated Custody Direction</i> .	Governor

6 Transfer of inmates held in segregated custody

6.1 Policy

In accordance with section 15 of the *Crimes (Administration of Sentences) Act 1999*, the segregated custody direction continues to apply:

- in relation to the receiving correctional centre, and
- in relation to the conveyance (escort vehicle) and in any correctional centre the inmate is held during the transfer to the receiving correctional centre.

Governors must not revoke a segregated custody direction prior to the transfer of the inmate unless an assessment report indicates that the inmate is no longer a threat to staff or other inmates.

When transferring an inmate on segregation orders, the Governors of both the sending and receiving centres must complete the *Governor's assessment and review advice* form, and Governor of the sending centre must send a copy to the MOS Inmate Transfers Unit along with the Section 23 request.

Where the inmate is also subject to a protective custody direction, the same procedures as 6.2 below must be followed.

6.2 Procedures for transfer of inmates under segregated custody direction

Where the Governor (delegate) believes the inmate still poses a significant and ongoing threat to the safety of others or to the security or good order and discipline of the correctional centre, prior to transfer, the following actions must be taken:

	Procedure	Responsibility
1.	Make appropriate entry on the alert screen of the OIMS.	Governor/ Authorised officer
2.	Complete Part A of the annexure <i>Governor's assessment and review advice</i> and email to the Governor/OIC of the receiving centre. It is recommended that telephone contact also be made to facilitate full discussion of the inmate's circumstances and to expedite the process.	Governor/OIC of the sending centre
3.	Complete Part B of the <i>Governor's assessment and review advice</i> and email back to the Governor/OIC of the sending correctional centre.	Governor/OIC of receiving centre
4.	Email the completed <i>Governor's assessment and review advice (GARA)</i> and the <i>Section 23 Transfer request</i> to the MOS Inmate Transfers Unit. Ensure a copy of the GARA is stored on EDRMS and the inmate's case file.	Governor/OIC of sending centre
5.	Send a copy of the <i>Governor's assessment and review advice</i> to the Governor/OIC of any correctional centre(s) where the inmate may be housed in transit to the receiving centre	MOS Inmate Transfers Unit

Within 72 hours after the inmate's arrival at the receiving correctional centre:

	Procedure	Responsibility
1.	Assess the information identified in the <i>Governor's assessment and review advice</i> . Make telephone contact if further information is required.	Governor/OIC
2.	Review the grounds on which the inmate was placed in segregated custody.	Governor/OIC
3.	Revoke, confirm or amend the segregated custody direction.	Governor/OIC
4.	Note decision in OIMS.	Governor/OIC

6.3 Procedures for inmates with a mental illness

7 Transfer of inmates from the High Risk Management Correctional Centre (HRMCC)

7.1 Policy

When an inmate participating in the HRMCC program is to be temporarily transferred to another correctional centre, the HRMCC Governor (delegate) should consider whether the inmate constitutes, or is likely to constitute, a threat to:

- the personal safety of any other person
- the security of a correctional centre
- the good order and discipline within a correctional centre.

If a threat exists, the Governor (delegate) should make a segregated custody direction outlining the nature of the concerns.

When the inmate is returned to the HRMCC, if the inmate is on a segregation direction, the Governor (delegate), HRMCC, must review the segregated custody direction for the purpose of deciding whether to revoke, continue or amend the segregated custody direction.

8.3 Review hearings conducted by video conferencing

If this occurs, SORC will conduct the review hearing from the video studio at the Silverwater Correctional Complex. Legal representatives may attend the review hearing at this location. Approved witnesses will be interviewed via video conference from the relevant correctional centre.

8.6 Determinations by the SORC

	Procedure	Responsibility
1.	Place a copy of the completed annexure on the inmate's CMF.	Governor

8.8 SORC considerations

SORC may refuse to review the direction if:

- the application does not disclose substantial grounds for a review
- SORC has previously determined the same direction and there has been no substantial change in the grounds for review.

SORC is not bound by the rules of evidence.

Evidence can be received in writing by fax/email, stored in a computer, telephone or any other electronic means.

In a review, SORC must consider:

- the legality of the segregated custody direction
- the reasonableness of the direction
- whether the direction was necessary to secure the personal safety of the inmate or any other person
- whether the direction was required to protect the security of, and the good order and discipline within the correctional centre
- whether the direction is in the interest of the public.

8.9 Suspension directions

The Chairperson of SORC may give a direction for:

- the suspension of an inmate's segregated custody direction
- the transfer of an inmate to a different correctional centre
- the confirmation of the inmate's segregated custody direction
- variation of the inmate's segregation custody direction.

An annexure *Serious offenders review council - suspension direction* may be given at any time after an application for a review is made and before it is determined. While it

is in force, the inmate is not to be held in segregated custody unless a new segregated custody direction is initiated.

The Chairperson may at any time vary or revoke a suspension direction. A suspension direction does not revoke a segregated custody direction.

A direction for the transfer of an inmate to a different correctional centre may be given:

- if the Chairperson considers that the inmate's transfer would facilitate the review of the segregated custody direction
- for any other reason that the Chairperson thinks fit.

8.10 Effect of SORC decision on further segregated custody

While a Governor (delegate) is obliged to enforce any decisions of SORC, such decisions affect only the segregated custody direction that is subject to the review from which the decision was made.

If SORC orders the revocation of a segregated custody direction, once it is revoked, that order ceases to have effect and the inmate must be returned to normal discipline.

If a Governor (delegate) obtains further information or other circumstances arise that SORC had not considered in the review, and if such information justifies that a new direction is warranted, the Governor (delegate) may initiate a new direction.

9 Reviewing and monitoring of segregated custody directions

9.1 Policy

It is important that segregated custody directions are reviewed and monitored by Governors.

At the local level the Governor (delegate) must ensure:

- all documentation has been completed accurately and submitted on time
- the CMU/SRC review or assess the continued nature of the threat/s or the circumstances that led to the direction being made
- any documentation to be forwarded to the SORC and DCJ Legal is completed accurately
- OIMS has been accurately maintained and updated.

10 Revocation of segregated custody directions

10.1 Policy

Section 17 of the *Crimes (Administration of Sentences) Act 1999* authorises a Governor (delegate) of a correctional centre to revoke a segregated custody direction

given by the Commissioner or any other approved delegate. A Governor (delegate) can revoke a segregated custody direction only after a thorough assessment indicates that the original threat(s) no longer exist or an appropriate means of eliminating the threat(s) is available. The *Revocation of segregated custody direction* must be completed and stored on EDRMS.

Note: An inmate cannot be placed into normal discipline and at the same time be subject to an active segregated custody direction. For example, a Governor (delegate) cannot test an inmate's behaviour in normal discipline and at the same time maintain an active segregated custody direction that could be utilised if the inmate does not conform.

When a direction has been revoked and it is necessary to segregate the inmate again, a new direction must be made (refer section above titled *Segregated custody direction* at 2).

10.2 Inmate assaults on staff

Where an inmate has been segregated as a result of an assault on a CSNSW staff member, and the period of segregation is being served at the centre where the staff member is employed, the Governor (delegate) of the centre is to seek the written views of that staff member prior to assessing whether or not to revoke the segregated custody direction. The Governor (delegate) is to then discuss the decision to revoke the direction with the respective Director, Custodial Corrections.

Where the Governor (delegate) determines it is appropriate to revoke the direction and return an inmate to normal discipline, they must put in place appropriate protocols to address concerns of centre employees (e.g. restrict the inmate's movement within the correctional centre, arrange for review of the inmate's classification and placement by the Classification and Placement Team (CPT)/SRC or roster the employee so they do not come in contact with the inmate).

Where appropriate, the Governor's (delegate) decision to revoke the direction will be based on the employee's report, discussions with the respective Director, Custodial Operations, and other considerations.

10.3 Procedures

1.	Collate required information, complete the <i>Revocation of segregated custody direction</i> assessment/checklist and forward to the Governor for decision.	Authorised officer
2.	Review the <i>Revocation of segregated custody direction</i> assessment/checklist collated by the Authorised officer. Consider the inmate's behavioural history and their behaviour during the period of segregated custody. Assess and determine whether a threat/s, as stated in the direction, either no longer exists or may be more appropriately be managed by means other than segregated custody.	Governor

	Procedure	Responsibility
3.	If satisfied the direction should be revoked, complete the <i>Revocation of segregated custody direction</i> addressing all points and clearly outlining the reason/s why the direction is being revoked.	Governor
4.	Forward (scan/email/fax) the completed <i>Revocation of segregated custody direction</i> to the respective Director, Custodial Operations (and if the inmate has appealed, a copy is also to be sent to SORC).	Authorised officer
5.	Make arrangements for the appropriate movement and placement of the inmate.	Governor/ Authorised officer
6.	Ensure that the OIMS Care-in-Placement module is updated to record the revocation.	Governor/ Authorised Officer
7.	Ensure that the <i>Revocation of segregated custody direction</i> is placed on EDRMS and the inmate's case management file.	Governor/ Authorised Officer

Note: Where an inmate has sought a review by the SORC of segregated custody direction and that direction is revoked by the Governor prior to the review hearing, a copy of the revocation should be emailed to SORC Executive Officer & Registrar, on SORC@dcj.nsw.gov.au and the DCJ LEGAL [REDACTED]
